I Don't Wanna Die

Subhumans

It's getting out of hand, they don't understand
They never ever will, they never ever can
Don't wanna live if I can't be free
The system kills but it won't kill me
I don't wanna die
Can't run away, come back someday
Cos it won't change whatever you say
Fear and guilt up to the hilt
They can't escape from the walls they've built
I don't wanna die
They gave me a gun and told me to run
"Defend your country from the atom bomb"
I said "Why?" They couldn't reply
The system kills but I don't wanna die
I don't wanna die
