Killing

Subhumans

You-You're driving me insane
But you know there's something wrong with my brain
My head is really in a whirl
You look just like a normal girl

But you don't really care
It happens everywhere
You don't give a shit
Forget about it

I was living in a plastic bag I didn't know what to do I didn't know she was a slag Well what would you do?

I didn't know I killed her I was out of my mind She only wanted my money But she made me blind
