

Panic

Sublime with Rome

So many people runnin
Don't know where they're goin.
Panic and panic and panic
Showing what side is wrong

I need the reason
And I've got to know.
Don't you wish your world was mine?

My only motive
For destruction
Is really really what we are

I need the reason
And I've got to know.
Don't you wish your world was mine?
Don't you wish your...

You open doors and close them
Quicker than the eyes of most.
Can't you see there is hope here
It's time for reaction

Shake me up
Somebody wake me up
I need to fight for my old mate of pollution
The rate of solution
To all of the damage that you've done

Don't you wish your world was mine?
Don't you wish your...

You open doors and close them
Quicker than the eyes of most.
Can't you see there is hope here
It's time for reaction

I realize what's wrong... wrong with your life
Quicker than the eyes of most.
Can't you see there is hope here
It's time for reaction

How can you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.
How can you say, you don't want to know, don't want to know the truth.

And that's alright
Oh, that's ok
And that's alright
Stop right there...
