

House Of Suffering

Sublime

O in this house of suffering
ya i gotta let some light in ya
i fear that freedom will win ya
oh where oh where can jah love be now ya
my dear, it's here in the underground
inside the hearts of your own children
in this house of suffering
i spirituallogic grin, in
one way grace is my friend
to conquer doom and sin
and all the people are lying
and all our people crying
and they stop at nothing!nothing!nothing!
in this house of suffering
don't want but just one thing
got to have my origin
in this house of suffering
