And this is how it happened to me
Went down to the clinic, positive HIV
HIV was never no friend to me
I love, I love, I leave, I leave it anyway
But oh god please I'll protect after this
Never want no music make me feel God blessed

You love and you love and you love but you one can't say

Said I Love, I love, I love, I love, I love I love, I love, I love, I love, I love One DJ causing trouble
Take your love away from me
