

Mic Control

Sublime

Wake up in the morning and its hard live
Hard to live yes its hard to live
And it will be a long time before shit starts to give
But everyday its getting harder to live

But I would up for being down with the ho
Still I know I got mic control
I'm aware of the high and the low
I've got spiritual mic control

But I move culturally
Unfortunately, its left up to me
All real lovers that wanna be ho's
What we need is just mic control

'Cause its not what you're saying but
What's in your soul
Mic control, its called mic control
Do you have mic control
You know this style is well original

At the party I got reason to give love in whole
Mic control, I've got mic control
I know I'm a reason come not to live
But every day its getting harder to live

I'm aware of the high and the low
Mic control, mic control, mic control
Heart and soul we've got mic control

But I move (for)tually
Unfortunately, I'm an opponent to me
Here lies something real
Mic control we've got mic control
Do you have mic control
