

Best Of Me

Submersed

You know you'll never get the best of me
don't you even try...
Can't stand in front of me, and destiny
all this wasted time, time of all of this....

You know you'll never get the best of me
don't you even try...
can't stand in front of me, and destiny
all this wasting time, time of all of this....

You know that I'll always be, who I want to be
and know when the time is right
I won't clarely see what I need to see.
You know that I'll always be, who I want to be....

I know you'll never change, never change me...

Who knows if I'll ever fly
If i reach the sky
feel my destiny
Just know that is not your right
to control my life, take away my dreams
I know that I'll fly so high
and I'll reach the sky
feel my destiny
I know that is not your right
to control my life
and owe this much to me
and owe this much to me...

Now without me when I push my mind
help me cross that line.
You know I do it almost every time
still you wonder why, why I cross that line
don't you remember what dismiss to me
before you try to speak
and don't forget just through you talking too
or I'll show you lose what's in front of you.. yeeahhh

No you'll never change, never change me

Who knows if I'll ever fly
If I reach the sky
feel my destiny
Just know that is not your right
to control my life and take away my dreams
I know that I'll fly so high
and I'll reach the sky
feel my destiny
I know that is not your right
to control my life
and owe this much to me, to me...

Cause I only have one life
and I try to do what's right for me
I all this much to me, yeeeeheehheeh

No you'll never change, never change me

Who knows if I'll ever fly
If I reach the sky
feel my destiny
Just know that is not your right
to control my life take away my dreams
I know that I'll fly so high
and I'll reach the sky
feel my destiny
I know that is not your right
to control my life

I know that I'll fly so high
and I'll reach the sky
feel my destiny
I know that is not your right
to control my life
I owe this much to me
