

Piano Song

Submersed

You curse me for the things I've done and said
You live your life in confusion fully misled
You let the things that mean the most slip away
You let the questions inside grow instead of fade

I've been walking this road for far too long
To turn and walk away
I've been walking this road for far too long
Listen to what I say
Listen to what I say

You plant the seed that's inside me so deep
You shelter me so naturally and complete
I'll take all that you give to me you'll see
I'll give it back tenfold I hope you will receive

I've been walking this road for far too long
To turn and walk away
I've been walking this road for far too long
Listen to what I say

And you're taking my life
And you're taking my time
And you're taking my skies
That fill my nights with you yeah

In the end I could walk away
In the end I could walk away
In the end I will find my way
In the end I could walk away

I've been walking this road for far too long
To turn and walk away
I've been walking this road for far too long
Listen to what I say

And you're taking my life
And you're taking my time
And you're taking my skies
That fill my nights with you yeah

I've been walking this road for far too long
To turn and walk away
I've been walking this road for far too long
Listen to what I say
