

Dark Country

SubRosa

No one ever sees the puppet strings
No one ever sees the dark country
I know you're coming for me now
I feel you coming for me now

No one ever feels
The heavy weight of lies revealed
No one ever feels
The burning towns, the burning fields

I know you're coming for me now
I feel you coming for me now
I see that black horse coming now
I know you're coming for me now
