

## When In The World

### Suburban Lawns

I don't have trouble sleeping  
It's too much trouble worrying  
I've got to think of my health  
If I don't, who will?  
It's okay, I'll change my attitude some day

When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me

Things are getting desperate  
Everyone is out for all they can get  
It won't stop 'til there's nothing left  
It won't matter no more  
It's okay, I'll change my attitude some day

When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me

I said I don't have trouble sleeping  
Too much trouble worrying  
I've got to think of my health  
'Cause if I don't, who will?  
It's okay, I'll change my attitude some day

Things are getting desperate  
Everyone is out for all they can get  
It won't stop 'til there's nothing left  
It won't matter no more  
It's okay, I'll change my attitude some day

When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me  
When the world starts worrying about me
