

# Emergency

## Suburban Legends

What if I told you  
Everything's not okay  
I'm stuck in my mind  
Got to get out of here  
What if I told you  
Every smile that I fake  
I think my face is gonna break  
[Chorus 1]  
What do I do  
The world keeps on weighing me  
What do I do  
When the pressure keeps pushing me  
Pushing me  
[Chorus 2]  
Emergency, emergency  
My whole life breaking down in front of me  
Emergency, emergency  
Emergency, emergency  
The pressure on my body makes it hard to breathe  
Emergency, emergency  
Someone get me out of my head  
Can you feel my body shaking  
I can feel my body shaking  
I didn't want to tell you  
(tell you, tell you)  
I have a great cry everyday before lunchtime  
(just before lunch time)  
Huh, now I'm gonna tell you  
Every couple minutes the world is gonna end  
In my mind  
[Chorus 1]  
[Chorus 2]  
Someone get me out of my head  
[Chorus 2 (2x)]  
Someone get me out of my head
