

Happiness it could only be
Together we can live in harmony (Oh, harmony)
The way you make me feel is so unreal
Together forever, nothings forever...
[Chorus 1:]
Lay beside me, stand right by me
Its your love I can't let go
Wait a while, two thousand miles
Separates me from your smile
At the time I really never thought about it
But I swear to you I never took you for granite
[Chorus 2:]
I waited too long, now that you're gone
Our story
You're not here so I'm going back to
Yesterday in all its glory
I promise it will be told
So I'm going back home
Touch of love with a sympathy
Summers that we spent inside a heaven (heaven)
I'm bound to you I was a kid in that song
Something really special, even since you've been gone
[Chorus 1]
[Chorus 2]
So I'm going back home
I'm going back home
I'm going back
[Chorus 1 x2]
I'm going back home
I'm going back home
