

Take the Next Step

Suburban Legends

We've been friends for so long
Maybe it's time we thought about dating
I want you so bad
But I'll never tell you to your face
(Doo wah doo)
[Chorus 1:]
Just think how great baby it could be
I'll be everything you want me to be
All I ask is that you give me a chance
Risk it all and give me that one kiss
[Chorus 2:]
Take the next step, in our friendship
Is it worth it?
Yeah I think it's worth it too
Take the next step, in our friendship
Is it worth it?
Yeah I think it's worth it
Call me on the phone you want to talk about
All the other boys you've got hanging around
I bite my lip on these textbook crush
On my best friends
I must, I must
[Chorus 1]
[Chorus 2]
[Chorus 1]
[Chorus 2 x2]
