

## Up All Night

Suburban Legends

Shake your booty  
Prepare for domination  
I think you'll like me  
I've got quite the reputation  
Here comes that feeling again  
Out pop my guts now I'm a mess  
Been up all night  
Wondering why  
Things aren't getting any better  
You look so good  
It can't be right  
Tonight lets make our dreams come true  
It's our little secret  
For your information  
I just can't beat it  
I've got a strong imagination  
I see you embracing me without a care  
We're weightless floating on the midnight air  
This moment is an unforgettable love affair  
Nothing matters when I touch your soft brown hair  
Hold on dear, we're falling now  
I forget which way is down  
Confusion clouding around  
Never wanted anything more than you now  
One step beyond its over  
Now I regret it  
Was it something inside my head?  
I know I'll take it  
One step again its not so bad  
I can't fake it  
Desires driving me mad  
I can't contain it contain it
