

Gravity

Suburban Tribe

Bind me but you can't hold me down
Bind me my face to the ground
Bind me but you can't hold me down
I won't make a sound

Your best is never enough for me
Your best is never enough for me
Your best is never enough for me
Don't have what I need

To me you're nothing but
Dead weight

Gravity
Pull yourself away from me
Pull yourself away
Gravity
Pull yourself away from me
Pull yourself away

Bind me but you can't make me come
Rape me but still I feel numb
Bind me but you can't make me come
Can't make me succumb

With you I'm always so alone
With you I'm always so alone
With you I'm always so alone
Never let you close

To me you're nothing but
Dead weight

Gravity
Pull yourself away from me
Pull yourself away
Gravity
Pull yourself away from me
Pull yourself away

Gravity
Gravity
Gravity

Gravity
Gravity

Gravity
Pull yourself away from me
Pull yourself away
Gravity
Pull yourself away from me
Pull yourself away

Pull yourself away from me
Pull yourself away

Pull yourself away from me
Pull yourself away

Pull yourself away from me
Pull yourself away
Gravity
