

## Kite Song

Suburban Tribe

Put me on a leash and let me fly  
gimme freedom and I'll fly high  
cut the rope and I'll dive to the ground

Loosen the rope but never let me go  
fly me in the sky and you will know  
I'll come down when you just pull the rope

I live for the wind

Treat me fair 'cause I wanna be whole  
pin holes in me and I'm gonna fly low  
I will never know what's behind this all

Don't you try to change me to something else  
do not beautify my plain face  
love me as I am and I'm OK

Pull the strings  
fly me and I'm yours for evermore  
feel the wind  
come beside me to whirl up in the wind
