

Silent Rain

Suburban Tribe

When hope is lost
when it all comes down
when hope is lost
love turns to hatred
save me
when there is no escape
when my back's against the wall
when there's no escape
love turns to hatred
save me
won't you save me please
silent rain
the silent rain will set us free and wash away the pain
the silent rain
when I've seen too much
when I feel all bruised and blue
when I've seen too much
love turns to hatred
