Bad Boy

Sue Thompson

When we walk by people stop and stare
They say that you don't care
What people say about you
But I know that you do and I do too
But let them say what they may
We'll find a way to make our dreams come true
Bad boy, bad boy I'll stand by you
I've heard them say you'll never change
That you're bad and bad to stay
You're just that way
And there's nothing that you can do
But my love for you will se me through
And darling, I'm so proud
So proud that I'll tell them out loud
That I'm in love with you
Bad boy bad boy...
