

ABC Song

Suede

Images of accidents run through your eyes
Calling conversations till you break
Crawling past the cash machines
And the Disney skies
Feeling like a fugitive again

But you got tomorrow in your eyes
And you got the future to come alive
Yeah you got tomorrow in your brain
You're the future people
To start again

The CCTV refugees you're born again
In the contradictions of the day
Speeding fast and drifting past you fade to grey
You're feeling like a fugitive again

But you got tomorrow in your eyes
Yeah you got the future to come alive
Yeah you make tomorrow a new day
You're the future people
To start again

Come on, the morning is calling you
Come on, let yesterday follow
