

# Always

Suede

Don't wish it away, just say it's over to my face,  
I face the morning with dreams that make my pillow wet,  
She said she was into me but I was always in the way,  
She pushed me away.

But I will always be near  
I will always be near  
Always be near

I set my clock for 7.30 every day.  
And wait for you like I'm in a book or in a play.  
I'm there outside with a weightlessness you can't escape,  
You can't wish me away.

Cause I will always be near  
I will always be near  
Always be near  
(2x)

I will always be near  
I will always be near  
Always be near

Like a sniper in the wings, like the endless chattering,  
Like the rope that twists in your hand and it's starting again  
Like a shadow on your lung, like the verse I've sung,  
Like the knife that twists in your hand and it's starting again

I will always be near  
I will always be near  
Always be near
