

Electricity

Suede

We got a love that's cold as stone
We got a love from our violent homes
We got a love and it got no name

We kiss our love with lips like pain
We got a lotta electricity
We got a love like AC/DC
We got a love and it got no shame
We kiss our love with lips like pain

Oh it's bigger than the universe
It's bigger than the universe
It's bigger than the 2 of us
Oh it's bigger than you and me

We got a love between us and it's like electricity
We got a love like a violent mind
We get our love from white white lines
We got a love and it got no name

We kiss our love with lips like pain
We got a love from nowhere towns
We got a love like electric sounds
We got a love and it got no shame
We kiss our love with lips like pain

I said, oh it's bigger than the universe
It's bigger than the universe
It's bigger than the 2 of us
Oh it's bigger than you and me
We got a love between us and it's like electricity
Oh it's bigger than the universe
It's bigger than the universe
It's bigger than the 2 of us
Oh it's bigger than you and me
We got a love between us that's like electricity
