

with eyes of blue  
and eyes of green  
and eyes that watch  
the drum machine

and eyes of green  
and eyes of blue  
a thousand eyes  
stare back at you

they watch the sky  
they watch the sun  
they watch them all  
they're having fun

with eyes of blue  
and eyes of green  
and eyes that watch  
the drum machine

we like the light that shines from you  
we like the things you say you do  
we like the people that you are  
cos you're a popular star

with eyes of gold  
and eyes of brown  
and eyes that watch  
the world go round

they see the girls  
they see the cars  
they see the world  
they go too far

we like the light that shines from you  
we like the things you say you do  
we like the people that you are  
cos you're the popular star

with eyes of blue  
and eyes of green  
and eyes that watch  
the drum machine

with eyes on me  
and eyes on you  
with eyes of green  
that once were blue
