

## She's Not Dead

Suede

she'll come to her end locked in a car somewhere with exhaust i  
n her hair

What's she called? I dunno, she's fucking with a slip of a man  
while the engine ran

And he said "She's not dead, she's gone away, gone away" he sai  
d

He said "She's not dead, just go away go away" he said

In the car he couldn't afford they found his made up name on he  
r ankle chain

so don't call, don't call her at home

she's fucking with a slip of a man while the engine ran

and he said "she's not dead, she's gone away gone away" he said

he said "she's not dead, she's gone away gone away"

he said "just gone away, gone away" he said

she's gone away to someone else's bed
