

## Since You Went Away

Suede

Since you went away  
Every night and day  
I've been drinking too much wine  
I've been sitting in doorways on circle lines

Since you went away  
Every night and day  
I've been staring into space  
I've been stumbling slowly through cityscapes

And i go where the people go  
And i see summer laugh at me  
What's that mean?

Since you went away  
Every night and day  
Well, i've just been marking time  
I've been staring at buildings and traffic signs

Since you went away  
Every night and day  
I've been wandering around  
I've been sat by the tv with the sound turned down

And i go where the people go  
And i see summer laugh at me  
What's that mean?

And i go where the people go  
And i see summer laugh at me  
What's that mean?

And i go where the people go  
And i see summer laugh at me  
What's that mean?
