

Size Too Small

Sufjan Stevens

I was the best man in a size too small
You were my best friend, going at it all
And what if I put off my inheritance?
Where is the best man? All arise us all in peace

I still know you
And I still like you, the best man
And I still owe you

Everything rises, going at it all
All the surprises in a size too small
And what if I told you I was still in love with this?
Would you surprise us in a size for all of me?

I still know you
And I still like you, the best man
I still know you, the best man
I still owe you
