

Star of Wonder

Sufjan Stevens

I call you
From the comet's cradle
I found you
Trembling by yourself
When the night falls
Lightly on your right-wing shoulder
Wonderful know-it-all
Slightly where the night gets colder

Oh, conscience,
Where will you carry me?
I found you
Star of terrifying effigies
When the night falls
I carry myself to the fortress
Of your glorious cost
Oh, I may seek your fortress

When the night falls
We see the star of wonder
Wonderful night falls
We see you
We see you

I see the stars coming down there
Coming down there to the yard
I see the stars coming down there
Coming down there to my heart
