Star of Wonder

Sufjan Stevens

I call you From the comet's cradle I found you Trembling by yourself When the night falls Lightly on your right-wing shoulder Wonderful know-it-all Slightly where the night gets colder

Oh, conscience, Where will you carry me? I found you Star of terrifying effigies When the night falls I carry myself to the fortress Of your glorious cost Oh, I may seek your fortress

When the night falls We see the star of wonder Wonderful night falls We see you We see you

I see the stars coming down there Coming down there to the yard I see the stars coming down there Coming down there to my heart
