

# Crash & Burn

Sugababes

We should've paid attention when we started seeing signs  
Could've slowed down to get our directions right  
We were headed for the edge  
Everything happens so fast  
Now its too late  
(Too late)

Too busy pointing fingers over who was wrong or right  
Couldn't see the pouring rain through our selfish pride  
Can't pretend all along we didn't see it coming  
Tried to hit the breaks

But we crashed and burned  
Somewhere we missed our turn  
Hit along the road  
We lost control

That's when we crashed and burned  
How did we miss our turn  
Somewhere along the road  
We let the wheel go

And our love crashed and burned  
We burned  
And our love crashed and burned  
We burned  
And our love crashed...

We lost it all in the fire  
We can't get it back  
Theres no way to recover anything we had  
We're on the outside looking in at our aftermath  
Now it's too late  
(Too late)

We can't be rescued from the pain or the heart ache  
Now trapped on the other side wit no way to escape  
Reaching out right before we took our last breath  
But we can't be saved, no

But we crashed and burned  
Somewhere we missed our turn  
Hit along the road  
We lost control

That's when we crashed and burned  
How did we miss our turn  
Somewhere along the road  
We let the wheel go

And our love crashed and burned  
We burned  
And our love crashed and burned  
We burned  
And our love crashed...

And the crowd it knows

Sometimes it ends up going wrong  
Life can play a sad love song  
If you look away for too long

Cause we crashed and burned  
Somewhere we missed our turn  
Hit along the road  
We lost control

That's when we crashed and burned  
How did we miss our turn  
Somewhere along the road  
We let the wheel go

And our love crashed and burned  
We burned  
And our love crashed and burned  
We burned  
And our love crashed and burned
