

Forever

Sugababes

Sometimes I feel I wanna fly away
With you my darling I just wanna stay
With you I look forward to better days
To be forever with you

I'm looking out upon a summers day
I pray to God it will remain this way
With you my heart will always be so true
I want forever with you
I want forever with you

When I look into your eyes I see
The love you feel for me
Lock me safe in your heart my baby
You have got the key, oh yeah
Each day is better than the one before
So stay forever more

Such a perfect match I can't let go
You are my angel love just can't say no
I wanna share with you my love so true
I'll be forever with you
I'll be forever with you
I'll be forever with you
