

# Mended by You

Sugababes

I tried to make it work  
I learned the hardest way  
I lost him in the end  
And it was over

I turned my back on life  
I switched off at the mains  
I cried night and day  
'Cause it was over

You came up  
I swear that it was just like something from a movie scene  
when we met, we connected  
I never expected you'd be everything to me

You are  
Everything I wanna say  
Nothing that I wanna lose  
Feel like I will never break  
I've been mended by you  
You're the reason that I wanna stay  
The places that I wanna go  
'Cause I know, I've been mended by you

You never held me close, you never let me go  
Just when I lost the fight, you were my soldier  
And now we're still in here, in such a different place  
August 23rd do you remember, oh

You came up  
I swear that it was just like something from a movie scene  
When we met, we connected  
I never expected you'd be everything to me

You are  
Everything I wanna say  
Nothing that I wanna lose  
Feel like I will never break  
I've been mended by you  
You're the reason that I wanna stay  
The places that I wanna go  
'Cause I know, I've been mended by you

I've been mended by you  
I've been mended by you

You are  
Everything I wanna say  
Nothing that I wanna lose  
Feel like I will never break  
I've been mended by you  
You're the reason that I wanna stay  
The places that I wanna go  
'Cause I know, I've been mended by you

I've been mended by you  
I've been mended by you
