

# Spiralling

Sugababes

We've passed a red light  
And I've got no fight  
Moving in the mad rush  
Won't admit I can't stop  
We're into overdrive

Hopelessly into you  
'Cos you know how to  
Make my feelings to  
Open up from inside  
No reason to be shy  
Every reason to be high

Nothing's really sane but  
Everything's amazing  
(Slowly taking over me)  
Baby have you noticed the sky is re-arranging  
(I feel it moving me)

Oh, the ground beneath us crumbles  
And we fall  
'Cos I don't wanna be alone  
(Caught up in a spiral)

(Caught up in a spiral)  
Before the ground beneath us crumbles and we fall  
So I'm not, will we fall  
'Cos I don't wanna be alone  
(Caught up in a spiral)

I'm trying to re-rush  
The moment we touched  
The moment we touch  
Breaking our hearts  
Well as good as it gets  
I can't get enough  
Fall into a headspace  
Deep into a new place

Give me a reason to be  
Nothing's really sane but
