

# How Much Longer

Sugar Jones

Do do do do do  
Do do do do do

I had the strangest dream last night just as I fell asleep  
And now I wonder what it means  
I tried to call your name I screamed aloud but nothing came  
Then you just smiled and walked away

How much longer til I find the real love baby  
I can't wait much longer here in vain  
How much longer til we walk in the sunshine baby  
I wanna feel that sunshine on my face

And as I travelled deep  
Dreams turned into memories (sweet memories)  
Of things i burried deep in me  
So scared and so unsure of things i never felt before  
Baby i just dont think I can hurt no more

How much longer til I find the real love baby  
I can't wait much longer here in vain  
How much longer til we walk in the sunshine baby  
I wanna feel that sunshine on my face

How much longer til I find the real love baby

(oh) First day that you came along  
Sweetness as you went on and on(on and on)  
Everyone's run their game and gone  
Told me I was beautiful (beautiful)  
Words they were so beautiful (beautiful)  
Felt like I was truly beautiful

Boy when I watch you leave then those sweet words turn bittersweet  
I'd never felt so incomplete  
But just one look from you is all you really have to do

Do do do do do  
Do do do do do

And all at once the whole world seems brand new  
(and all at once the whole world seems brand new)

How much longer til I find the real love baby  
I can't wait much longer here in vain  
How much longer til we walk in the sunshine baby  
I wanna feel that sunshine on my face

feel that sunshine on my face

How much longer til I find the real love baby  
I can't wait much longer here in vain  
How much longer til we walk in the sunshine baby  
I wanna feel that sunshine on my face

Real love real love

How much longer til I find the real love baby  
I can't wait much longer here in vain  
How much longer til we walk in the sunshine baby  
I wanna feel that sunshine on my face
