

American Pig

Sugar Ray

I put my hands right through the air and close my eyes and stare (2x)

You wanna talk about respect, its all behind you
cause too many people are waiting in the wings

born and bred this american pig

put your foot in your mouth but the hole's too big

you talk more shit, I'll make your eyes burn

if you dont quit, time for a hard learn

I put my hands right through the air and close my eyes and stare

you want to talk about, you know about the little things you talk about

think you know me pretty well then I know it's time to sell

only move for money thats the

way it's gonna be

though it doesn't grow on trees I love to bask in the breeze

you talk more shit, I'll make your eyes burn

if you dont quit, time for a hard learn

I put my hands right through the air and close my eyes and stare

we'll sell you out so fast

we'll tear it down so fast

we get our culture from a mini mall, fuck inside a bathroom stall

rob peter pay paul I'm just like you I want it all

I talk more shit, I'll make your eyes burn

if you dont quit, time for a hard learn

we'll sell you out so fast we'll tear it down so fast (2x)

you talk more shit, well I'll make your eyes burn

if you

dont quit, time for a hard learn

I talk more shit (4x)

born and bred this american pig!
