

Breathe

Sugar Ray

You pull my head back watch me bleed
I need it again
no time to move can't even breathe
your face is stuck in a magazine
such a bitch
for once do something for yourself
so breathe
breathe (3x)
you found me out some how you found me out (3x)
you scratch and kick and pull and fight
and do it again
I do it wrong and you do it right
and now your gone your so uptight
It gets so hard
all we ever do is fuck and fight
so breathe
breathe (3x)
you found me out some how you found me out (7x)
some how
It's all the same no matter what you say
I think I need it
you got the same no matter what you say
the grass is greener in L.A.
just a suspect
everybody's dead in their own way
so breathe
breathe (3x)
you found me out some how you found me out (7x)
some how
