

# Rainbow

Sugar Ray

I know that time are right now  
But every struggle has its phase.  
I know that people bring you down  
Save the trouble and just walk away.

And the sun will burn the clouds away  
And the sun will burn the clouds away.  
If you wanna see the rainbow you gotta  
Sit through a little rain  
If you wanna see the rainbow you gotta  
Sit through a little rain.

I know that you feel it gets the end  
With every ending something begins.  
I know that life seems so pointless  
But the point is for you to live.

And the sun will burn the clouds away  
And the sun will burn the clouds away.  
If you wanna see the rainbow you gotta  
Sit through a little rain  
If you wanna see the rainbow you gotta  
Sit through a little rain.

Everyone has to wait for the rain  
For the rain For the rain. Its ok  
Its ok. The sun will burn the clouds away  
The sun will burn the clouds away.

If you wanna see the rainbow you gotta  
Sit through a little rain  
If you wanna see the rainbow you gotta  
Sit through a little rain.

Sit through a little rain  
A little rain.  
Sit through a little rain  
A little rain.  
A little rain.
