

# Bigger

Sugarland

People walking around like the world's about to end  
And if you're asking me  
My mind would agree  
These days we all feel small my friend

It's getting harder and harder to hold our heads up high  
Baby let's circle the wagons  
Show all the dragons they don't own the sky  
We know how to fly

Gravity can't hold us down  
We're moving at the speed of sound  
Past the point from here on out  
There's no going back

'Cause we were born for better days  
We'll find a way yeah  
We're gonna be bigger

Don't give up you're more than enough  
Believe me love yeah you're gonna be bigger

Lookin' at everybody else  
And you hate yourself  
And it hurts your heart  
Yeah it's easy to let it  
Make you forget it  
You are perfect the way you are

Gravity can't hold you down  
You're moving at the speed of sound  
Past the point from here on out  
There's no going back

'Cause we were born for better days  
We'll find a way yeah  
We're gonna be bigger

Don't give up you're more than enough  
Believe me love yeah you're gonna be bigger

If they're uninvited don't shut your mouth don't keep quiet  
Just let 'em know that they can't try it  
That this body's your temple  
And they can't buy it cause nobody's money no 'mount of power no kind of bait  
Can make you take it and hate yourself for what they did you won't forget you  
u can forgive they think they're big  
But you're bigger

'Cause we were born for better days  
We'll find a way yeah  
We're gonna be bigger

Don't give up you're more than enough (gonna be gonna be)  
Believe me love yeah you're gonna be bigger

'Cause we were born for better days  
We'll find (gonna be gonna be) a way yeah  
We're gonna be bigger

Don't give up you're more than enough  
Believe me love yeah you're gonna be bigger

Yeah you're gonna be bigger (oooooh)
