

Another Apple In My Mouth

Sugarplum Fairy

Long before I was once another
And I guess I was better now after
Fill my heart with your love sweet love
And replace another apple in my mouth
It's such a long distance and I don't wanna
Lose control another aching blister on my soul
Another apple in my mouth I don't know what to do
Another bullet in my chest I wanna die for you
Fill me up fill me up until you go
Fill me up fill me up until you go
Another apple in my mouth
An opened door and I know for sure
That the people my people have spoken
Are you getting old it's a fact hold on
Because its love and I guess it's the answer
It's such a long distance and I don't wanna
Lose control another aching blister on my soul
Another apple in my mouth I don't know what to do
Another bullet in my chest I wanna die for you
Fill me up fill me up until you go
Fill me up fill me up until you go
Another apple in my mouth
