

## Another Apple In My Mouth

Sugarplum Fairy

Long before I was once another  
And I guess I was better now after  
Fill my heart with your love sweet love  
And replace another apple in my mouth  
It's such a long distance and I don't wanna  
Lose control another aching blister on my soul  
Another apple in my mouth I don't know what to do  
Another bullet in my chest I wanna die for you  
Fill me up fill me up until you go  
Fill me up fill me up until you go  
Another apple in my mouth  
An opened door and I know for sure  
That the people my people have spoken  
Are you getting old it's a fact hold on  
Because its love and I guess it's the answer  
It's such a long distance and I don't wanna  
Lose control another aching blister on my soul  
Another apple in my mouth I don't know what to do  
Another bullet in my chest I wanna die for you  
Fill me up fill me up until you go  
Fill me up fill me up until you go  
Another apple in my mouth
