

# Bring Danger

Sugarplum Fairy

Something brought me here to stay  
But for a reason hard to see  
Eighteen years they planned my way  
And just like that, hey you're free

Am I allowed to change the rules?  
Am I to question everything?  
A useless generations fool  
In the eyes of those who bring

Me to this, I got nothing to loose

Bring danger to me  
and I will catch the bullets  
Dnger to me  
something new to me  
Breing danger to me  
And we will be where we were promised to be  
Bring danger to me

They tell you you're nothing  
and that nothing comes for free  
Don't think that you're special or that you will ever be

I still and always will believe  
that the future's ment for us  
If we only keep to be naive  
then we'll get across

Until then I got nothing to loose

Bring danger to me  
and I will catch the bullets  
Dnger to me  
something new to me  
Breing danger to me  
And we will be where we were promised to be  
Bring danger to me

I made a promise to you  
that we would mean something  
Someday maby  
Who knows?  
You can save me

Bring danger to me  
and I will catch the bullets  
Dnger to me  
something new to me  
Breing danger to me  
And we will be where we were promised to be  
Bring danger to me

Dawn  
on and on and on
