

Lonely Star

Sugarplum Fairy

I sat and watched they blowed my town away
I read in the news it sounded just like a game
And yes I cried out my memories again
And now when everything was gone
I wished that I wasn't born
It was just like starting over again
So I knew they had pressed the button
But now I feel like I'm in deepest pain
Well
I feel like a lonely star who is waiting for a heart of
gold
I feel like a lonely star who is waiting for a heart of
gold
And my day feels just like the night
I hope I were someplace else but I'm stuck
I sat and listen to a song it was about a world beyond
And I felt peace a world of silence
And then I started to feel hope I was glad I was still
alive
And I knew that I had a chance again
So I knew just what to do
I started a revolution but still I fell well
I feel like a lonely star who is waiting for a heart of
gold
I feel like a lonely star who is waiting for a heart of
gold
And my day feels just like the night
I hope I were someplace else but I'm stuck
So don't try to fool me no more I'm standing alone
I'm watching you slowly you'll soon be dead
Like a lonely star who is waiting for a heart of gold
I feel like a lonely star who is waiting for a heart of
gold
And my day feels just like the night
I hope I were someplace else but now I have to
Refill my heart with gasoline and darts
I have to lose my sense cause this will never end
I'm stuck I'm tied my youth is paralyzed
So make this the paradise then lonely star will rise
And I'm stuck girl
