

San José

Sugarplum Fairy

Sitting in a train, watching you listen to the rain.
You are cute, so cute and I ask you for your name
You say your name is like the sun.
Warm and happy for everyone, are you from town?
Which town? We're both on the run
I read a magazine about a girl with a dream
Who was looking to find a meaning
And she looked just like you
Say where are you going to?
Where are you going to?
Then
She said I'm going all the way to San José
And I hope you will follow me there
She said I'm going all the way to San José and I hope
You will follow me there
So then I drowned in your face and I swum in your
Mouth for a while
So wild and then the time arrived
And we talked until the sun came up
Behind the mountain tops which burst the sky
And I felt like I could fly
You made me feel so free,
Made me feel like I could be
On my way to eternity
So take me on a ride tonight you and i
We're gonna make it glide
Then
She said I'm going all the way to San José
And I hope you will follow me there
She said I'm going all the way to San José
And I hope you will follow me there
Then
She said I'm going all the way to San José
And I hope you will follow me there
She said I'm going all the way to San José
And I hope you will follow me there
This is what I heard inside my head longing for a
Change lying in my bed
Dreaming dreams of you I'm gonna make it too
This is what I heard inside my head
