Dark Abyss

Suicidal Angels

Sanctify the darkness Vanquishing the Light Unholy, dark and brutal There is no point to fight

Pay no respect to preachers Salvation from above? The deepest dark of all Lies right within your soul

Billions of followers Obey to manmade rules Reaching for the heavens A summoning of fools

Falling down on your knees To save yourself from fear Your path is set, it's useless Your doom is more than near

Fall into Dark Abyss Fall into the Dark Fires of hate condemn your life Your fate is colored black

There is no Hope, there is no light There's no escape from what is right You know your soul is black Life's only road leads to the dark

Some blackened dreams for blackened hearts A blackened wish, a soul apart In black we're born, in Black we live In Black we die, in Black we trust

Of men it is expected To die and fall from grace It is their very nature Darkness to embrace

There is no light to save us There is no hope ahead The only fate awaiting us Lies not in wine and bread

The path into damnation The only path to choose Our destiny determined There's nothing left to lose

Ascension of the wicked Leave all your hopes behind Accept your darkest feelings The fall of humankind
