

# Morbid Intention To Kill

## Suicidal Angels

Awaiting in the distant black  
A psychotic form  
Swallowed in the will to kill  
Life is ignored

Satisfaction to be pleased  
A distorted mind  
Spreading sickness and disease  
Slavery of humankind  
This now what I have become  
The beast you used to hide  
I am your fear, your need to kill  
I'm what you keep inside

Morbid intention to kill  
Nothing to stop me  
Preventing your death  
I'm gonna bring you the night  
Once (Since) I was born  
To kill is my fate  
Evil will meet in my sight  
Gathering powers  
Of all damned in hell  
I am the son to be cursed  
Your blood is my life  
Sickness disease  
I'm choosing the souls that will serve

Slay down the gods  
Thrown in the abyss  
This is the path of no return  
With no emotion  
One by one  
Will feel the blade condemned  
Inner desire  
Like eternal fire  
Burning under my skin  
I can't stop my intention to kill
