

# Screams Of Homicide

## Suicidal Angels

Assaulting your mind  
Destroying your thoughts  
Unable to react from  
Pieces of reality

The full moon is bleeding, this is my night  
That terrible screams of homicide, bring me back to life  
Unholy powers arm my hand  
Frozen I'm waiting the final command  
My salvation Christ destruction  
Just to see him on his knees  
Beg for mercy on the cross  
Release the power upon Christianity

Satan my master lead me to victory  
Demons my warriors come with me  
I command you rise from your grave  
I command you rise, attack, destroy and kill

Christians sacrificed, priest crucified  
Jesus stands unable to save his own sheep  
No more prayers to the God, no ceremonies in the church  
Only screams of death surround you
