## Suicidal Angels

Bloodless dissection  
A life that was never meant to be  
Certain death  
Reality is just a distant memory  
Saints of evil  
A family of rats  
To lead you through the life  
Now pay the price  
The future in the promised land  
Is just a fading light

Dominate all corrupted sons  
Eternal fire reaching out the dawn  
No salvation souls submit  
Master of illusion, fire, blood, disease

Come to life  
Once you're born you will become  
What you are my slave  
Eyes shut  
Obey the commandments  
Or rot inside your grave  
Heavenly betrayed  
Faith and devotion  
Transformed in apathy  
The holy cross  
A piece of wood on fire  
To warm reality

Dominate all corrupted sons  
Eternal fire reaching out the dawn  
No salvation souls submit  
Master of illusion, fire, blood, disease

Crushed one after another  
Fiercely mutilated  
Skeletal remains  
Behind the holy blood  
The afterlife promises  
Disappeared in vain  
Formless pile of bodies  
Of humans sacrificed  
Spilling tons of blood  
Within the years of terror  
Subnormal offerings  
From the servants of the god
