You haven't eaten in days and your gums are bleeding Swearing to God the pipe's all you're needing It's robbing or stealing or turning a trick You do whatever it takes to suck on the Devil's dick

The more you feed it, the harder it is to tame Taking in the Beast, playing it like a game Lying to yourself saying the same old shit "I don't need it, I just don't want to quit"

The hunger of addiction calls
There's nothing romantic about going through withdrawals
You're craving a sample well, here's just a taste
Picking and scratching the scabs on your face

Your life support system's a syringe
Killing a piece of your soul every time you binge
Praying to God and begging for forgiveness
Knowing damn well that you can't keep going on like this

I won't give up the plot but here's a few surprises Muscle spasms, you're puking as your temperature rises Led off to slaughter like a heard of cattle The demons inside have won the battle

The Devil takes another soul to burn What does it take for another fool to learn The ritual's over as another one dies The ritual begins as another one tries

It's a feeding time...
It's your feeding time
It's a feeding time...

It's your feeding time It's a feeding time... It's your feeding time It's a feeding time... Feeding...the monster! Cursing at God and praying to die... Cursing at God and praying to die... Cursing at God and begging to die... Cursing at God and begging to die...
