

Got Mutation

Suicidal Tendencies

I got mutation baby

I'm sinking inside a dream
Cemented in make believe
I'm pointing why can't they see?
Have you got mutation baby?
The demons inside a tree
So have you been mutated baby?

I got mutation

I'm blazing uncharted paths
Challenging the ghosts of the past
Confusing the sacred oath -
I got mutation baby
Antagonize the caustic host
Mutation!
I got mutation, I got mutation
I got mutation, I got mutation
I got mutation baby
I got mutation baby
I got mutation baby
I got mutation baby
Have you got mutation baby?
I got mutation baby

The essence that angers builds
The terror that knows no guilt
Sensation that has no bounds -
have you got mutation baby?
When the spirits all make the rounds

Have you got mutation?
Yes I got mutation!
How do you make, how do you break?
Yes I got mutation!
How do you break, how do you make?
Have you got mutation?
Yes I've gone mutation!
I got mutation!
