

Happy Never After

Suicidal Tendencies

Sick to the bone, diagnosis unknown
Sick to the bone, confused and alone

Happy never after
Happy never after
Happy never after

Feeling nothing
Wanting something
To take away all my pain
Seeing nothing
Hearing something
Please, make it all go away

Where's my happy ever after?
There's no happy ever after
Where's my happy ever after?
Just a happy never after

Sensing something
Smelling nothing
But the stench suffocates
Madness loaded
Mind is bloated
Can't keep going this way

Won't be happy ever after
There ain't no happy ever after
Never a happy ever after
Always a happy never after

Rotting slowly, feeling unholy
Denial seething, rotting, bleeding
Happy never after, happy never after
So stop dreaming

Happy never after
Happy never after
Happy never after
Wake up to another nightmare

Won't be a happy ever after
There ain't no happy ever after
Never a happy ever after
Always a happy never after

Nothing to hide, but all the pain inside
Sick to the bone, confused and alone
Nowhere to hide all the pain that's inside

Nothing left, nothing right
Nothing right, nothing left inside!

Feeling nothing
Wanting something
To take away all this pain
Seeing nothing

Hearing something
Make it go away

Won't be a happy ever after
There ain't no happy ever after
Never a happy ever after
Always a happy never after

Nothing to hide, but all the pain that's inside
Sadness turning, emotions burning
Sick to the bone, confused and alone
Creeping faster the final disaster
Rotting out slowly, feeling unholy
Denial and seething, rotting and bleeding

There ain't no happy ever after
Happy never after
Happy never after
Happy never after
Happy never after
Happy never after
Happy never after

Nothing left, nothing right
Where's my happy ever after?
Nothing right, nothing left
Never a happy ever after
Nothing left, nothing right
Always a happy never after
Nothing right, nothing left inside
