[Louiche Mayorga/Mike Muir] S.T.! Listen up real well, I got a story to tell Pay attention this way to what I've got to say Took it to the street, rap to the people we meet We're rocking out hard to the Suicidal beat Tried to deny our right, so we put up a fight Just doing our thang, they tried to call it a gang Saw the way we look, and that's all that it took All that they wrote, they had their scapegoat Dressed down... Homeboyz... Minority... Join the Army! Join the New Army! The S.T. Army! Join the New Army! We're the few, we're the proud, we like to jam it loud The music we play won't have it any other way We're armed to the bone with our music and our tone Recruiting on the street to the sound of our beat Growing larger every day and every time we play Don't need no college plan, we're just a hard-rocking band We like our music to please but we ain't gonna appease No pressure's too much to make us change our touch Hardcore... Punk rock... The Cyco way... Join the Army! Join the New Army! The S.T. Army! Join the New Army! Don't be no fool, don't let your prejudice rule Don't judge by your fear, judge us by your ear Can't believe every word of every story you've heard Just play the song, I know you'll start to rock along Well I don't care 'bout the clothes you wear It's the size of your heart, not the length of your hair Don't make no difference to me, the color that you be Black, white or brown, it's all the same to me Join the Army... Join the Army... The Suicidal Army! Join the Army... Suicidal!

Well if you still don't believe you best get up and leave
Do what you must do, but this ain't the place for you
You got no right but if you start a fight
We'll be rockin' your head but with our fists instead
I'll fight it with the band, right down till the end
Ask anyone I've met, this ain't no idle threat
Don't flap no lip and it won't come to hip
But as for me, I'm down with the Army
