ST ST ST ST ST ST ST ST

I never said I don't like religion-I just don't like TV
You say I got a bad attitude-around you that comes naturally
You say I need more compassion-
I can forgive, I just can't forget
You say control my temper-
but when I feel like shit, I feel like shit

Cause I was born to be-ST
And I'll always be-ST
Don't get down on me-ST
Cause I'm down OG-ST
Not afraid to die-ST
Just you promise me-ST
Yo got to carry on-ST
You gotta carry on-ST

Why can't I ask any questions if what you say is true
Am I supposed to believe everything-
or just everything said by you?
And how can you call me stupid-
when you don't understand what I say
And how can you call me evil-have you spoken to God today-
And what did He say?

As long as your heart beats-pledge your allegiance

You can call me ugly-but I still dress the way I choose
How you gonna judge me-you've never taken a walk in my shoes
Why don't you ever trust me when I'm smiling-
is it a sin to have fun?
And why should I repent when there's nothin' wrong with anythin'
g that I've done
